Expert Witness:

- Expert report and testimony in UK High Court relating to the valuation of a refining asset (further details are confidential).
- Numerous expert reports and testimony for East Mediterranean Gas versus Egypt and Egyptian State (ICSID, UNCITRAL, ICC, and CRCICA).
- Expert report and testimony at ICSID regarding the sale and operation of a European refinery.
- Expert report in matter of Louis Dreyfuss versus Holding Tuscum BV regarding the sale of the Wilhelms-haven refinery in Germany.
- Expert report for the valuation of an FSU refinery in relation to a UNCITRAL dispute

Refining and Petrochemical—Technical and Commercial:

- Technical due diligence on petrochemical facilities in FSU
- Review of potential terminal development in Mediterranean, analysis of trade flows and fuel oil blending potential
- Assessment of the commercial viability of a proposed new mini refinery
- Valuation of an oil terminal in the Middle East.
- Crude oil valuation for numerous crudes including a heavy, acidic crude oil.
- Technical/economic due diligence review of a refinery expansion in the Middle East

Natural Gas and LNG:

- Review of development options and monetisation of gas resources in the Caspian region.
- Analysis of options for stranded gas monetisation in east Africa. Options included small-scale power generation, fertilizer production and CNG.
- Review of gas import options and pricing strategy on behalf of a Middle Eastern oil ministry.
- Strategic advice regarding future investment strategy for LNG.
- Market study for European gas demand and potential for a pipeline expansion
- Comparison of gas utilisation options in West Africa
- Analysis of options for developing a natural gas market in a country with previously minimal usage
