## Expert Witness:

- Expert report and testimony in UK High Court relating to the valuation of a refining asset (further details are confidential).
- Numerous expert reports and testimony for East Mediterranean Gas versus Egypt and Egyptian State (ICSID, UNCITRAL, ICC, and CRCICA).

- Expert report covering the characteristics of an FSU refinery, its markets, competitors and its estimated value. (UNCITRAL)
- Plama Consortium versus Bulgaria— Expert report and testimony at ICSID regarding the sale and operation of a European refinery. Report included analysis of refinery costs, operations, physical equipment condition and development of cash flow projections for the refinery.

- Expert report in matter of Louis Dreyfuss versus Holding Tusculum BV regarding the sale of the Wilhelmshaven refinery in Germany. The report covered a review of the European refining sector at the time of the refinery sale.
- Expert report for the valuation of an FSU refinery in relation to an UNCITRAL dispute.

- Advice to White and Case regarding refined product pricing in USA.
- Expert report (quantum only) for BHP Billiton versus Dalmine. The focus was on the alleged loss of earnings due to gas supply interruption (contributing author).
- Expert report for UK dispute regarding fuel oil indexation in natural gas contracts (contributing author).
- Expert report regarding valuation of an oil distribution company (co-author). The claim was settled prior to arbitration.
- Contributor to expert report covering the value of a fertilizer production plant in north Africa.
